## LANGUAGE SKILLS

Turkish : Native language

English

German

## ABOUT ME

After working as a research assistant in the Department of Electrical and Electronics Engineering at a university in Turkey for 4.5 years, I transitioned to the dynamic world of software development. Coding gives me both excitement and happiness. Now, as a dedicated Java developer, I focus on creating efficient and maintainable code using technologies such as Spring Boot, PostgreSQL, JavaScript, and React.

## WORK EXPERIENCE

**2012 - 2023:**

I worked in various institutions as an electrical and electronics engineer.

**2023 - Still:**

As of 2023, I have been focusing full-time on code development and code review with technologies such as java, springboot, javascript and react.

## EDUCATION

**19 Mayıs University**

bachelor's degree in electrical and electronic engineering
